For starters, they offer a total turnkey solution, which means they can tackle each and every aspect of a construction job from start to finish. "The biggest advantage to using us is we can handle everything from A to Z," says NuGen president Billy Kegg, who's been an entrepreneur since 2007.

When NuGen opened two and half years ago, they initially only provided roofing services, but they have quickly expanded to meet the needs of their customers. Master builders with over thirty years of combined professional roofing and construction experience, they now also offer complete and partial room remodeling (including kitchens and bathrooms), room additions, outdoor living spaces, outdoor fireplaces, arbors, fencing, concrete for patios, hanging gutters, installing and repairing siding, flooring, tile, painting, and countertops.

"If you can think of it, we can do it," says Kegg. In fact, the only thing they don't do is foundation repair and swimming pools. They also partner with other companies to provide referrals for

whatever their customers might need outside their scope of services. For example, when a home's roof is damaged by hail, their cars may have hail damage also; in addition to repairing or installing a new roof, NuGen can also refer them to a dent repair shop they can trust.

With twenty crews highly qualified in the fields in which they work, NuGen can handpick the right crew for the job at hand. "We're very particular in making sure we have the right match for the project," says Kegg.

Everyone is licensed and insured, and a contractor with NuGen is on the job site every day, making sure everything goes according to plan and the best possible outcome is achieved. NuGen believes communication is key, and provides

regular updates to the clients, as well as transparency and a detailed explanation when unexpected problems arise.

Many customers are surprised to find that hiring NuGen not only saves them time and frustration, but often saves them money in the long run as well.

"We're very competitive," says Kegg. "We probably won't be the cheapest estimate you'll get, but we warranty everything we do." As the saying goes, you get what you pay for. Clients can rest assured NuGen and their crew will be on the job every day until the job is completed to their satisfaction, and in the unlikely event something goes wrong, they stand behind their work and will fix it.

The difference is also in the little touches, like offering a thirty-year roof instead of the standard twenty-five.

With a new office and showroom that just opened in Plano at 1100 Summit Avenue (at the corner of Plano Parkway and Avenue K), customers can now see what NuGen offers in person as well as meet the staff. Family owned, operated, and local to the area, NuGen Contractors is the metroplex's go-to contractor for any job they have. 📍
